PHILIPPINE IT LAWS AND POLICIES

cpe.ananias.joel@gmail.com

Diferent IT Laws in the Philippines

a. E-Commerce Law (RA 8792)
b. Intellectual Property Code of the Philippines (RA 8293)
c. Optical Media Act of 2002 (RA 9239)
d. Data Privacy Act of 2012 (RA 10173)
e. Department of Information and Communication Technology Act of 2015 (RA10844)
f. Cybercrime Prevention Act of 2012 (RA 10175)

E-Commerce Law (RA 8792)

The E-Commerce Law, also known as the Republic Act of **8792**, which recognizes the importance of Information and Communication Technology (ICT) in nation-building while also setting the goal of making the country more **"information friendly“.**

E-Commerce Law (RA 8792)

The ECommerce Law emphasizes the importance of strict authorizations for electronic documents, as well as the authentication process that goes along with them, as well as the promotion of the use of ICT in government and the general public, according to the Act's sponsors.

Optical Media Act 2002 (RA 9239)

Republic Act No. 9239 is an act regulating optical media, reorganizing for this purpose the video gram regulatory board, providing penalties therefor, and for other purposes. It is also known as the Optical Media Act of 2003. This Act declares the guiding principles of the country to ensure the protection and promotion of intellectual property rights

Learn More

Optical Media Act 2002 (RA 9239)

In the Philippines, there is a vast problem in duplicating optical media. Many people are imitating (mostly) DVD's for the sake of business. For example, they record a certain video file, burn it to a DVD or CD and sell it for a lower price. However, this is not in favor of the said Law. It is against this Act to replicate or imitate an optical media because it is not right or legal to obtain some records to a person without any permission. If a person wants to copy a certain file, he/she must give credits to the owner.
